Follow-up - State Reporting (i) Action by Treaty Bodies

CAT, A/60/44 (2005)

...

CHAPTER IV. FOLLOW-UP ON RECOMMENDATIONS AND OBSERVATIONS ON STATES PARTIES REPORTS

115. At its thirtieth session, in May 2003, the Committee began a routine practice of identifying, at the end of each set of concluding observations, a limited number of recommendations that are of a serious nature and warrant a request for additional information following the dialogue with the State party concerning its periodic report. The Committee identifies conclusions and recommendations regarding the reports of States parties which are serious, can be accomplished in a one-year period, and are protective. The Committee has requested those States parties reviewed since the thirtieth session of the Committee to provide the information sought within one year.

...

118. The Rapporteur has welcomed the follow-up information provided by six States parties as of 20 May 2005, when its thirty-fourth session concluded, indicating the commitment of the States parties to an ongoing process of dialogue and cooperation aimed at enhancing compliance with the requirements of the Convention. The documentation received will be given a document number and made public. The Rapporteur has assessed the responses received particularly as to whether all of the items designated by the Committee for follow-up (normally between three and five issues) have been addressed, whether the information provided is responsive, and whether further information is required.

119. With regard to the States parties that have not supplied the information requested, the Rapporteur will write to solicit the outstanding information. The chart below details, as of 20 May 2005, the conclusion of the Committee's thirty-fourth session, the status of follow-up replies to concluding observations since the practice was initiated. As of that date, the replies from seven States parties remained outstanding.

120. As the Committee's mechanism for monitoring follow-up to concluding observations was established in May 2003, this chart describes the results of this procedure from its initiation until the close of the thirty-fourth session in May 2005.

...

CHAPTER IV. FOLLOW-UP ON CONCLUSIONS AND RECOMMENDATIONS ON STATES PARTIES REPORTS

38. In Chapter IV of its annual report for 2004-2005 (A/60/44), the Committee described the framework that it had developed to provide for follow-up subsequent to the adoption of the concluding observations on States parties reports submitted under article 19 of the Convention. It also presented information on the Committee's experience in receiving information from States parties from the initiation of the procedure in May 2003 through May 2005. This chapter updates the Committee's experience to 19 May 2006, the end of its thirty-sixth session.

39. In accordance with rule 68, paragraph 2, of the rules of procedure, the Committee established the post of Rapporteur for follow-up to concluding observations under article 19 of the Convention and appointed Ms. Felice Gaer to that position. As in the past, Ms. Gaer presented a progress report to the Committee in May 2006 on the results of the procedure.

40. The Rapporteur has emphasized that the follow-up procedure aims "to make more effective the struggle against torture and other cruel, inhuman and degrading treatment or punishment," as articulated in the preamble to the Convention. At the conclusion of the Committee's review of each State party report, the Committee identifies concerns and recommends specific actions designed to enhance each State party's ability to implement the measures necessary and appropriate to prevent acts of torture and cruel treatment, and thereby assists States parties in bringing their law and practice into full compliance with the obligations set forth in the Convention.

41. Since its thirtieth session in May 2003, the Committee began the practice of identifying a limited number of these recommendations that warrant a request for additional information following the review and discussion with the State party concerning its periodic report. Such "follow-up" recommendations are identified because they are serious, protective, and are considered able to be accomplished within one year. The States parties are asked to provide within one year information on the measures taken to give effect to its "follow-up recommendations" which are specifically noted in a paragraph near the end of the conclusions and recommendations on the review of the States parties' report under article 19.

42. Since the procedure was established at the thirtieth session in May 2003 through the end of the thirty-sixth session in May 2006, the Committee has reviewed 39 States for which it has identified follow-up recommendations. Of the 19 States parties that were due to have submitted their follow-up reports to the Committee by 1 May 2006, 12 had completed this requirement (Argentina, Azerbaijan, Czech Republic, Colombia, Germany, Greece, Latvia, Lithuania, Morocco, New Zealand, United Kingdom, and Yemen). As of May, seven States had failed to supply follow-up information that had fallen due (Bulgaria, Cambodia, Cameroon, Chile, Croatia, Moldova, Monaco), and each was sent a reminder of the items still outstanding and requesting them to submit information to the Committee.

43. With this procedure, the Committee seeks to advance the Convention's requirement that "each State party shall take effective legislative, administrative, judicial or other measures to prevent acts of torture ..." (art. 2, para. 1) and the undertaking "to prevent ... other acts of cruel, inhuman and degrading treatment or punishment ..." (art. 16).

44. The Rapporteur has expressed appreciation for the information provided by States parties regarding those measures taken to implement their obligations under the Convention. In addition, she has assessed the responses received as to whether all of the items designated by the Committee for follow-up (normally between three to six recommendations) have been addressed, whether the information provided responds to the Committee's concern, and whether further information is required. Where further information is needed, she writes to the State party concerned with specific requests for further clarification. With regard to States that have not supplied the follow-up information at all, she writes to solicit the outstanding information.

45. Each letter responds specifically and in detail to the information presented by the State party, which is given a formal United Nations document symbol number.

46. Since the recommendations to each State party are crafted to reflect the specific situation in that country, the follow-up responses from the States parties and letters from the Rapporteur requesting further clarification address a wide array of topics. Among those addressed in the letters sent to States parties requesting further information have been a number of precise matters seen as essential to the implementation of the recommendation in question. A number of issues have been highlighted to reflect not only the information provided, but also the issues not addressed but which are deemed essential in the Committee's ongoing work in order to be effective in taking preventive and protective measures to eliminate torture and ill-treatment.

...

48. The chart below details, as of 19 May 2006, the end of the Committee's thirty-sixth session, the state of the replies with respect to follow-up.

...

IV. FOLLOW UP ON CONCLUSIONS AND RECOMMENDATIONS ON STATES PARTIES REPORTS

46. In Chapter IV of its annual report for 2005 2006 (A/61/44), the Committee described the framework that it had developed to provide for follow up subsequent to the adoption of the conclusions and recommendations on States parties reports submitted under article 19 of the Convention. It also presented information on the Committee's experience in receiving information from States parties from the initiation of the procedure in May 2003 through May 2006. This chapter updates the Committee's experience to 18 May 2007, the end of its thirty eighth session.

47. In accordance with rule 68, paragraph 2, of the rules of procedure, the Committee established the post of Rapporteur for follow up to conclusions and recommendations under article 19 of the Convention and appointed Ms. Felice Gaer to that position. As in the past, Ms. Gaer presented a progress report to the Committee in May 2007 on the results of the procedure.

48. The Rapporteur has emphasized that the follow up procedure aims "to make more effective the struggle against torture and other cruel, inhuman and degrading treatment or punishment", as articulated in the preamble to the Convention. At the conclusion of the Committee's review of each State party report, the Committee identifies concerns and recommends specific actions designed to enhance each State party's ability to implement the measures necessary and appropriate to prevent acts of torture and cruel treatment, and thereby assists States parties in bringing their law and practice into full compliance with the obligations set forth in the Convention.

49. Since its thirtieth session in May 2003, the Committee began the practice of identifying a limited number of these recommendations that warrant a request for additional information following the review and discussion with the State party concerning its periodic report. Such "follow up" recommendations are identified because they are serious, protective, and are considered able to be accomplished within one year. The States parties are asked to provide within one year information on the measures taken to give effect to its "follow up recommendations" which are specifically noted in a paragraph near the end of the conclusions and recommendations on the review of the States parties' reports under article 19.

50. Since the procedure was established at the thirtieth session in May 2003, through the end of the thirty eighth session in May 2007 the Committee has reviewed 53 States for which it has identified follow up recommendations. Of the 39 States parties that were due to have submitted their follow up reports to the Committee by 18 May 2007, 25 had completed this requirement (Albania, Argentina, Austria, Azerbaijan, Bahrain, Canada, Chile, Czech Republic, Colombia, Croatia, Ecuador, Finland, France, Germany, Greece, Latvia, Lithuania, Monaco, Morocco, New Zealand, Qatar, Sri Lanka, Switzerland, United Kingdom and Yemen). As of 18 May, 14 States had not yet supplied follow up information that had fallen due (Bulgaria, Bosnia and Herzegovina, Cambodia, Cameroon, Democratic Republic of the Congo, Georgia, Guatemala,

Republic of Korea, Moldova, Nepal, Peru, Togo, Uganda and United States of America). In March 2007, the Rapporteur sent a reminder requesting the outstanding information to each of the States whose follow up information was due in November 2006, but had not yet been submitted, and who had not previously been sent a reminder.

51. The Rapporteur noted that 14 follow up reports had fallen due since the previous annual report (A/61/44). However, only 4 (Austria, Ecuador, Qatar and Sri Lanka) of these 14 States had submitted the follow up information in a timely manner. Despite this, she expressed the view that the follow up procedure had been remarkably successful in eliciting valuable additional information from States on protective measures taken during the immediate follow up to the review of the periodic reports. While comparatively few States had replied precisely on time, 19 of the 25 respondents had submitted the information on time or within a matter of one to four months following the due date. Reminders seemed to help elicit many of these responses. The Rapporteur also expressed appreciation to non governmental organizations, many of whom had also encouraged States parties to submit follow up information in a timely way.

52. Through this procedure, the Committee seeks to advance the Convention's requirement that "each State party shall take effective legislative, administrative, judicial or other measures to prevent acts of torture ..." (art. 2, para. 1) and the undertaking "to prevent ... other acts of cruel, inhuman and degrading treatment or punishment ..." (art. 16).

53. The Rapporteur has expressed appreciation for the information provided by States parties regarding those measures taken to implement their obligations under the Convention. In addition, she has assessed the responses received as to whether all the items designated by the Committee for follow up (normally between three and six recommendations) have been addressed, whether the information provided responds to the Committee's concern, and whether further information is required. Each letter responds specifically and in detail to the information presented by the State party. Where further information is needed, she writes to the State party concerned with specific requests for further clarification. With regard to States that have not supplied the follow up information at all, she writes to solicit the outstanding information.

54. At its thirty eighth session in May, the Committee decided to make public the Rapporteur's letters to the States parties. These would be assigned a United Nations document symbol number and placed on the web page of the Committee. The Committee further decided to assign a United Nations document symbol number to all States parties' replies (these symbol numbers are under consideration) to the follow up and also place them on its website.

55. Since the recommendations to each State party are crafted to reflect the specific situation in that country, the follow up responses from the States parties and letters from the Rapporteur requesting further clarification address a wide array of topics. Among those addressed in the letters sent to States parties requesting further information have been a number of precise matters seen as essential to the implementation of the recommendation in question. A number of issues have been highlighted to reflect not only the information provided, but also the issues that have not been addressed but which are deemed essential to the Committee's ongoing work, in order to be effective in taking preventive and protective measures to eliminate torture and ill treatment.

...

57. The chart below details, as of 18 May 2007, the end of the Committee's thirty eighth session, the state of the replies with respect to follow up.

CHAPTER IV. FOLLOW-UP ON CONCLUSIONS AND RECOMMENDATIONS ON STATES PARTIES REPORTS

46. In this chapter, the Committee updates its findings and activities that follow-up on the conclusions and recommendations adopted under article 19 of the Convention, in accordance with the recommendations of its Rapporteur on Follow-Up to Country conclusions. The Rapporteur's activities, responses by States parties, and the Rapporteur's views on recurring concerns encountered through this procedure are presented below, and updated to through May 2008, following the Committee's fortieth session.

47. In chapter IV of its annual report for 2005-2006 (A/61/44), the Committee described the framework that it had developed to provide for follow-up subsequent to the adoption of the conclusions and recommendations on States parties reports submitted under article 19 of the Convention. It also presented information on the Committee's experience in receiving information from States parties from the initiation of the procedure in May 2003 through May 2008.

48. In accordance with rule 68, paragraph 2, of the rules of procedure, the Committee established the post of Rapporteur for follow-up to conclusions and recommendations under article 19 of the Convention and appointed Ms. Felice Gaer to that position. As in the past, Ms. Gaer presented a progress report to the Committee in May 2008 on the results of the procedure.

49. The Rapporteur has emphasized that the follow-up procedure aims "to make more effective the struggle against torture and other cruel, inhuman and degrading treatment or punishment", as articulated in the preamble to the Convention. At the conclusion of the Committee's review of each State party report, the Committee identifies concerns and recommends specific actions designed to enhance each State party's ability to implement the measures necessary and appropriate to prevent acts of torture and cruel treatment, and thereby assists States parties in bringing their law and practice into full compliance with the obligations set forth in the Convention.

50. In its follow-up procedure, the Committee has identified a number of these recommendations as requiring additional information specifically for this procedure. Such follow-up recommendations are identified because they are serious, protective, and are considered able to be accomplished within one year. The States parties are asked to provide within one year information on the measures taken to give effect to its follow-up recommendations which are specifically noted in a paragraph near the end of the conclusions and recommendations on the review of the States parties' reports under article 19.

51. Since the procedure was established at the thirtieth session in May 2003, through the end of the fortieth session in May 2008, the Committee has reviewed 67 States for which it has identified follow-up recommendations. Of the 53 States parties that were due to have submitted

their follow-up reports to the Committee by 16 May 2008, 33 had completed this requirement (Albania, Argentina, Austria, Azerbaijan, Bahrain, Bosnia and Herzegovina, Canada, Chile, Czech Republic, Colombia, Croatia, Ecuador, Finland, France, Georgia, Germany, Greece, Guatemala, Hungary, Republic of Korea, Latvia, Lithuania, Monaco, Morocco, Nepal, New Zealand, Qatar, Russian Federation, Sri Lanka, Switzerland, United Kingdom of Great Britain and Northern Ireland, United States of America and Yemen). As of 16 May, 20 States had not yet supplied follow-up information that had fallen due (Bulgaria, Burundi, Cambodia, Cameroon, Democratic Republic of the Congo, Denmark, Guyana, Italy, Japan, Luxembourg, Mexico, Moldova, the Netherlands, Peru, Poland, South Africa, Tajikistan, Togo, Uganda and Ukraine). In March 2008, the Rapporteur sent a reminder requesting the outstanding information to each of the States whose follow-up information was due in November 2007, but had not yet been submitted, and who had not previously been sent a reminder.

52. The Rapporteur noted that 14 follow-up reports had fallen due since the previous annual report.³ However, only 2 (Hungary and the Russian Federation) of these 14 States had submitted the follow-up information in a timely manner. Despite this, she expressed the view that the follow-up procedure had been remarkably successful in eliciting valuable additional information from States on protective measures taken during the immediate follow-up to the review of the periodic reports. While comparatively few States had replied precisely on time, 25 of the 33 respondents had submitted the information on time or within a matter of one to four months following the due date. Reminders seemed to help elicit many of these responses. The Rapporteur also expressed appreciation to non-governmental organizations, many of whom had also encouraged States parties to submit follow-up information in a timely way.

53. Through this procedure, the Committee seeks to advance the Convention's requirement that "each State party shall take effective legislative, administrative, judicial or other measures to prevent acts of torture ..." (art. 2, para. 1) and the undertaking "to prevent ... other acts of cruel, inhuman and degrading treatment or punishment ..." (art. 16).

54. The Rapporteur expressed appreciation for the information provided by States parties regarding those measures taken to implement their obligations under the Convention. In addition, she has assessed the responses received as to whether all the items designated by the Committee for follow-up (normally between three and six recommendations) have been addressed, whether the information provided responds to the Committee's concern, and whether further information is required. Each letter responds specifically and in detail to the information presented by the State party. Where further information has been needed, she has written to the concerned State party with specific requests for further clarification. With regard to States that have not supplied the follow-up information at all, she requests the outstanding information.

55. At its thirty-eighth session in May 2007, the Committee decided to make public the Rapporteur's letters to the States parties. These would be placed on the web page of the Committee. The Committee further decided to assign a United Nations document symbol number to all States parties' replies to the follow-up and also place them on its website (<http://www2.ohchr.org/english/bodies/cat/sessions.htm>).

56. Since the recommendations to each State party are crafted to reflect the specific situation

in that country, the follow-up responses from the States parties and letters from the Rapporteur requesting further clarification address a wide array of topics. Among those addressed in the letters sent to States parties requesting further information have been a number of precise matters seen as essential to the implementation of the recommendation in question. A number of issues have been highlighted to reflect not only the information provided, but also the issues that have not been addressed but which are deemed essential to the Committee's ongoing work, in order to be effective in taking preventive and protective measures to eliminate torture and ill-treatment.

...

58. The chart below details, as of 16 May 2008, the end of the Committee's fortieth session, the state of the replies with respect to follow-up.

CAT, A/64/44 (2009)

IV. FOLLOW UP ON CONCLUDING OBSERVATIONS ON STATES PARTIES REPORTS

53. In this chapter, the Committee updates its findings and activities that follow-up to concluding observations adopted under article 19 of the Convention, in accordance with the recommendations of its Rapporteur on follow-up to concluding observations. The Rapporteur's activities, responses by States parties, and the Rapporteur's views on recurring concerns encountered through this procedure are presented below, and updated through 15 May 2009, following the Committee's forty-second session.

54. In chapter IV of its annual report for 2005-2006 (A/61/44), the Committee described the framework that it had developed to provide for follow-up subsequent to the adoption of the concluding observations on States parties reports submitted under article 19 of the Convention. It also presented information on the Committee's experience in receiving information from States parties from the initiation of the procedure in May 2003 through May 2009.

55. In accordance with rule 68, paragraph 2, of the rules of procedure, the Committee established the post of Rapporteur for follow up to concluding observations under article 19 of the Convention and appointed Ms. Felice Gaer to that position. As in the past, Ms. Gaer presented a progress report to the Committee in May 2009 on the results of the procedure.

56. The Rapporteur has emphasized that the follow up procedure aims "to make more effective the struggle against torture and other cruel, inhuman and degrading treatment or punishment", as articulated in the preamble to the Convention. At the conclusion of the Committee's review of each State party report, the Committee identifies concerns and recommends specific actions designed to enhance each State party's ability to implement the measures necessary and appropriate to prevent acts of torture and ill-treatment, and thereby assists States parties in bringing their law and practice into full compliance with the obligations set forth in the Convention.

57. In its follow-up procedure, the Committee has identified a number of these recommendations as requiring additional information specifically for this procedure. Such follow-up recommendations are identified because they are serious, protective, and are considered able to be accomplished within one year. The States parties are asked to provide within one year information on the measures taken to give effect to its follow-up recommendations which are specifically noted in a paragraph near the end of the conclusions and recommendations on the review of the States parties' reports under article 19.

58. Since the procedure was established at the thirtieth session in May 2003, through the end of the forty-second session in May 2009, the Committee has reviewed 81 States for which it has identified follow up recommendations. Of the 67 States parties that were due to have submitted their follow up reports to the Committee by 15 May 2009, 44 had completed this requirement. As of 15 May 2009, 23 States had not yet supplied follow up information that had fallen due. The

Rapporteur sends reminders requesting the outstanding information to each of the States whose follow up information was due, but had not yet been submitted, and who had not previously been sent a reminder. The status of the follow-up to concluding observations may be found in the web pages of the Committee (<http://www2.ohchr.org/english/bodies/cat/sessions.htm>).

59. The Rapporteur noted that 14 follow up reports had fallen due since the previous annual report. However, only 4 (Algeria, Estonia, Portugal and Uzbekistan) of these 14 States had submitted the follow up information in a timely manner. Despite this, she expressed the view that the follow up procedure had been remarkably successful in eliciting valuable additional information from States on protective measures taken during the immediate follow up to the review of the periodic reports. One State party (Montenegro) had already submitted information which was due only in November 2009. While comparatively few States had replied precisely on time, 34 of the 44 respondents had submitted the information on time or within a matter of one to four months following the due date. Reminders seemed to help elicit many of these responses. The Rapporteur also expressed appreciation to non governmental organizations, many of whom had also encouraged States parties to submit follow up information in a timely way.

60. Through this procedure, the Committee seeks to advance the Convention's requirement that "each State party shall take effective legislative, administrative, judicial or other measures to prevent acts of torture ..." (art. 2, para. 1) and the undertaking "to prevent ... other acts of cruel, inhuman and degrading treatment or punishment ..." (art. 16).

61. The Rapporteur expressed appreciation for the information provided by States parties regarding those measures taken to implement their obligations under the Convention. In addition, she has assessed the responses received as to whether all the items designated by the Committee for follow up (normally between three and six recommendations) have been addressed, whether the information provided responds to the Committee's concern, and whether further information is required. Each letter responds specifically and in detail to the information presented by the State party. Where further information has been needed, she has written to the concerned State party with specific requests for further clarification. With regard to States that have not supplied the follow up information at all, she requests the outstanding information.

62. At its thirty eighth session in May 2007, the Committee decided to make public the Rapporteur's letters to the States parties. These would be placed on the web page of the Committee. The Committee further decided to assign a United Nations document symbol number to all States parties' replies to the follow up and also place them on its website (<http://www2.ohchr.org/english/bodies/cat/sessions.htm>).

63. Since the recommendations to each State party are crafted to reflect the specific situation in that country, the follow up responses from the States parties and letters from the Rapporteur requesting further clarification address a wide array of topics. Among those addressed in the letters sent to States parties requesting further information have been a number of precise matters seen as essential to the implementation of the recommendation in question. A number of issues have been highlighted to reflect not only the information provided, but also the issues that have not been addressed but which are deemed essential to the Committee's ongoing work, in order to be effective in taking preventive and protective measures to eliminate torture and ill treatment.

...

65. The chart below details, as of 15 May 2009, the end of the Committee's forty-second session, the state of the replies with respect to follow up.

Chapter IV. Follow-up to concluding observations on States parties' reports

65. In this chapter, the Committee updates its findings and activities that constitute follow-up to concluding observations adopted under article 19 of the Convention, in accordance with the procedure established on follow-up to concluding observations. The follow-up responses by States parties, and the activities of the Rapporteur for follow-up to concluding observations under article 19 of the Convention, including the Rapporteur's views on the results of this procedure, are presented below. This information is updated through 14 May 2010, the end of the Committee's forty-fourth session.

66. In chapter IV of its annual report for 2005-2006 (A/61/44), the Committee described the framework that it had developed to provide for follow-up subsequent to the adoption of the concluding observations on States parties reports submitted under article 19 of the Convention. In that report and each year thereafter, the Committee has presented information on its experience in receiving information on follow-up measures taken by States parties since the initiation of the procedure in May 2003.

67. In accordance with rule 68, paragraph 2, of the rules of procedure, the Committee established the post of Rapporteur for follow-up to concluding observations under article 19 of the Convention and appointed Ms. Felice Gaer to that position. In November 2009 and May 2010, the Rapporteur presented a progress report to the Committee on the results of the procedure.

68. At the conclusion of the Committee's review of each State party report, the Committee identifies concerns and recommends specific measures to prevent acts of torture and ill-treatment. Thereby, the Committee assists States parties in identifying effective legislative, judicial, administrative and other measures to bring their laws and practice into full compliance with the obligations set forth in the Convention.

69. In its follow-up procedure, the Committee has identified a number of these recommendations as requiring additional information within one year. Such follow-up recommendations are identified because they are serious, protective and are considered able to be accomplished within one year. The States parties are asked to provide information within one year on the measures taken to give effect to the follow-up recommendations. In the concluding observations on each State party report, the recommendations requiring follow-up within one year are specifically identified in a paragraph at the end of the concluding observations.

70. Since the procedure was established at the thirtieth session in May 2003, through the end of the forty-fourth session in May 2010, the Committee has reviewed 95 reports from States parties for which it has identified follow-up recommendations. It must be noted that periodic reports of Chile, Latvia, Lithuania and New Zealand have been examined twice by the Committee since the establishment of the follow-up procedure. Of the 81 States parties that were due to have submitted their follow-up reports to the Committee by 14 May 2010, 57 had completed this

requirement. As of 14 May 2010, 24 States had not yet supplied follow-up information that had fallen due: Republic of Moldova, Cambodia, Cameroon, Bulgaria, Uganda, Democratic Republic of the Congo, Peru, Togo, Burundi, South Africa, Tajikistan, Luxembourg, Benin, Costa Rica, Indonesia, Zambia, Lithuania (to the 2009 concluding observations), Chad, Chile, Honduras, Israel, New Zealand, Nicaragua and the Philippines.

71. The Rapporteur sends reminders requesting the outstanding information to each of the States for which follow-up information is due, but not yet submitted. The status of the follow-up to concluding observations may be found in the web pages of the Committee at each of the respective sessions. As of 2010, the Committee has established a separate web page for follow-up (<http://www2.ohchr.org/english/bodies/cat/follow-procedure.htm>).

72. Of the 24 States parties that did not submit any information under the follow-up procedure as of 14 May 2010, non-respondents came from all world regions. While about one-third had reported for the first time, two-thirds were reporting for a second, third or even fourth time.

73. The Rapporteur expresses appreciation for the information provided by States parties regarding those measures taken to implement their obligations under the Convention. In addition, she has assessed the responses received as to whether all the items designated by the Committee for follow-up (normally between three and six recommendations) have been addressed, whether the information provided responds to the Committee's concern, and whether further information is required. Each letter responds specifically and in detail to the information presented by the State party. Where further information has been needed, she has written to the concerned State party with specific requests for further clarification. With regard to States that have not supplied the follow-up information at all, she requests the outstanding information.

74. At its thirty-eighth session in May 2007, the Committee decided to make public the Rapporteur's letters to the States parties which are posted on the web page of the Committee. The Committee further decided to assign a United Nations document symbol number to all States parties' replies to the follow-up and also place them on its website.

75. Since the recommendations to each State party are crafted to reflect the specific situation in that country, the follow-up responses from the States parties and letters from the Rapporteur requesting further clarification address a wide array of topics. Among those addressed in the letters sent to States parties requesting further information have been a number of precise matters seen as essential to the implementation of the recommendation in question. A number of issues have been highlighted to reflect not only the information provided, but also the issues that have not been addressed but which are deemed essential to the Committee's ongoing work, in order to be effective in taking preventive and protective measures to eliminate torture and ill-treatment.

76. Among the Rapporteur's activities in the past year, have been the following: attending the inter-committee meetings in Geneva where follow-up procedures were discussed with members from other treaty bodies, and it was decided to establish a working group on follow-up; addressing the Committee on the Elimination of Discrimination against Women at its August 2009 meeting in New York concerning aspects of the follow-up procedure; assessing responses

from States parties and preparing follow-up letters to countries as warranted and updating the information collected from the follow-up procedure.

77. Additionally, the Rapporteur initiated a study of the Committee's follow-up procedure, beginning with an examination of the number and nature of topics identified by the Committee in its requests to States parties for follow-up information. She reported to the Committee on some preliminary findings, in November 2009 and later in May 2010, and specifically presented charts showing that the number of topics designated for follow-up has substantially increased since the thirty-fifth session. Of the 87 countries examined as of the forty-third session (November 2009), one to three paragraphs were designated for follow-up for 14 States parties, four or five such topics were designated for 38 States parties, and six or more paragraphs were designated for 35 States parties. The Rapporteur drew this trend to the attention of the members of the Committee and it was agreed in May 2010 that, whenever possible, efforts would henceforth be made to limit the number of follow-up items to a maximum of five paragraphs.

78. The Rapporteur also found that certain topics were more commonly raised as a part of the follow up procedure than others. Specifically, for all State parties reviewed since the follow-up procedure began, the following topics were most frequently designated:

Ensure prompt, impartial and effective investigation(s)	76 per cent
Prosecute and sanction persons responsible for abuses	61 per cent
Guarantee legal safeguards	57 per cent
Enable right to complain and have cases examined	43 per cent
Conduct training, awareness-raising	43 per cent
Ensure interrogation techniques in line with the Convention	39 per cent
Provide redress and rehabilitation	38 per cent
End gender-based violence, ensure protection of women	34 per cent
Ensure monitoring of detention facilities/visit by independent body	32 per cent
Carry out data collection on torture and ill-treatment	30 per cent
Improve condition of detention, including overcrowding	28 per cent

79. In the correspondence with States parties, the Rapporteur has noted recurring concerns which are not fully addressed in the follow-up replies and her concerns (illustrative, not comprehensive) have been included in prior annual reports. To summarize them, she finds there is considerable value in having more precise information being provided, e.g. lists of prisoners, details on deaths in detention and forensic investigations.

80. As a result of numerous exchanges with States parties, the Rapporteur has observed that there is need for more vigorous fact-finding and monitoring in many States parties. In addition, there is often inadequate gathering and analysing of police and criminal justice statistics. When the Committee requests such information, States parties frequently do not provide it. The Rapporteur further considers that conducting prompt, thorough and impartial investigations into allegations of abuse is of great protective value. This is often best undertaken through unannounced inspections by independent bodies. The Committee has received documents, information and complaints about the absence of such monitoring bodies, the failure of such bodies to exercise independence in carrying out their work or to implement recommendations for

improvement.

81. The Rapporteur has also pointed to the importance of States parties providing clear-cut instructions on the absolute prohibition of torture as part of the training of law-enforcement and other relevant personnel. States parties need to provide information on the results of medical examinations and autopsies, and to document signs of torture, especially including sexual violence. States parties also need to instruct personnel on the need to secure and preserve evidence. The Rapporteur has found many lacunae in national statistics, including on penal and disciplinary action against law-enforcement personnel. Accurate record keeping, covering the registration of all procedural steps of detained persons, is essential and requires greater attention. All such measures contribute to safeguard the individual against torture or other forms of ill-treatment, as set forth in the Convention.

82. The chart below details, as of 14 May 2010, the end of the Committee's forty-fourth session, the replies with respect to follow-up. This chart also includes States parties' comments to concluding observations, if any.

Follow-up procedure to concluding observations from May 2003 to May 2010

(ii) Action by State Party

CAT/C/GRC/CO/4/Add.1 (2006)

**Comments by the Government of Greece to the conclusions
and recommendations of the Committee against Torture(CAT/C/CR/33/2)**

[14 March 2006]

1. With reference to the contents of paragraph 6, points (e), (h), (i), (j), (k) and (m) of the document of the Committee against Torture, the following information is provided:
2. The protection of human rights is of paramount importance to the Greek Police Force.
3. To this end, strict provisions have been made in the disciplinary Regulations of the police staff, for both the most expeditious prosecution and the punishment of such offences.
4. According to the provision of article 21, para. 1 of presidential decree 22/1996, offences committed by police officers, that are subject to disciplinary measures, owing to the nature of the duties assigned to them and their special effect on the fulfilment of the police mission, should be confirmed as soon as possible.
5. Moreover, according to article 9, para 1c of the above decree, the instigation of torture, physical injury, damage to health, psychological violence and any other act or behaviour that constitutes a serious violation of human dignity, on or off duty, is punished by removal from service.
6. The disciplinary investigation of complaints for torture or other violations of human dignity is carried out by sworn administrative inquiries. In the General Police Directorates of Attica and Thessaloniki, such inquiries are conducted by special agencies, (Administrative Inquiry Sub-directorates), on which the charged police officers have no administrative dependency.
7. In other Police Services, such inquiries are conducted by officers of the competent Police Directorates in which the charged police officers serve.
8. However, for reasons of objective administration of disciplinary justice, according to the provisions of articles 11 and 15 of presidential decree 3/2004, which amended the provisions of articles 23 (1) and 27 (2) of presidential decree 22/1996, in cases of complaints of torture or other violations of human dignity:
 - (a) Disciplinary proceedings against the liable police officer by the issuance of an order for such an inquiry are initiated solely by agencies superior to the Police Directorate to which the charged officer belongs administratively;
 - (b) The administrative inquiry is assigned to an officer of a Police Directorate other than that to

which the charged police officer belongs.

9. Para. 3g of circular order 6004/1/5-va' issued on 14 February 2004 by the Hellenic Police Marshal, entitled "Amendment of provisions- reform of disciplinary law applicable to police staff", pointed out once again to all agencies that the respect and protection of human rights is of paramount importance for the Headquarters and that the application of the above provisions offers enhanced guarantees for impartial and objective assertion of the relevant offences.

10. Any case of ill treatment, abuse of use of firearms by police officers undergoes disciplinary investigation according to the police staff Disciplinary Regulations and, if the findings of the commission of disciplinary offences are confirmed, the prescribed sanctions are imposed. At the same time, these cases undergo judicial investigation by the independent judicial authorities. In application of the provision of article 49 (1) of presidential decree 22/1996, as replaced by article 29 of decree 3/2004, facts the occurrence or non-occurrence of which was ascertained by an irrevocable judgment or an irrevocable release of a criminal court are binding on the disciplinary judges; in all other cases, the judgment of the criminal court is taken into account in the disciplinary hearing, but the disciplinary body is not prevented from issuing a judgment different than that of the criminal court.

11. The Hellenic Police Headquarters has repeatedly issued orders concerning the protection of human rights and the overall behaviour of the staff on this matter and is continuously monitoring their implementation. It will proceed to the necessary actions in the event that additional measures are warranted.

12. In addition, the independent authority Ombudsman is competent to review the legality of disciplinary procedures either ex officio or following complaints made by interested parties, and may recommend either compliance with lawful procedures or the taking of prescribed measures.

13. On the occasion of the recent (special) Report of the above authority, and Officers Committee was established to examine whether the current disciplinary law needs to be amended or improved with regard to the procedure of investigating charges against police officers for ill treatment of citizens. This Committee completed its task by preparing a report. At the same time, a Project Management Team was established by resolution of the Minister of Public Order, chaired by a higher judicial official, with the participation of police officials, whose task is to revise the disciplinary law for police staff. The said report was forwarded to the chairman of this committee in order to be taken into account.

14. The Ministry of Public Order and the Hellenic Police Headquarters are determined not to allow the development of xenophobia or the manifestation of racism within the Hellenic police force; they will not check any illegal, irregular or improper behaviour by police officers. It should be noted that the investigation of cases to date did not establish any racist or xenophobic motivation.

15. Police Headquarters have issued the following documents:

(a) The presidential decree "Code of ethics for police officers" (N° 254/2004, Government

Gazette A-238), which comprises rules for the respect of human rights and the protection of vulnerable people and social groups. The European Code of Police Ethics, the international resolutions on rules of behaviour for police officers, the observations and suggestions of National Human Rights Committee, the suggestions of the Ombudsman, the views of the Office of the High Commission for Refugees in Greece and the views of the police staff federations were taken into account in the preparation of that decree. Copies of the code were distributed to all police officers, border guards and special guards and the subject was included in the education and training courses of all police academies;

(b) A handbook on intra-family violence, which aims at protecting human rights, especially of women and children, within the family and at informing police officers when violations occur. It is also targeted at the more systematic and complete handling of such cases, through the provision of instructions to police staff. Intra-family violence is a subject covered in police academies;

(c) A circular order (7100/22/4a of 17 June 2005) on “Arrests as preventive and repressive action in the exercise of police activity”, which aims at providing interpretative clarifications to the police agencies, on the basis of the current provisions, and demonstrating sensitivity in matters of protection of individual rights of citizens, according to the relevant proposals of the Ombudsman;

(d) A handbook entitled “Arrests, treatment and rights of persons detained by police authorities” (June 2005), which deals with matters concerning the protection of the rights of citizens in police action and specifies general principles and rules established by the Code of Ethics for police staff. It includes circular orders on checking and arresting citizens, the treatment and the rights of persons detained by police authorities, and the disclosure of the identity of arrested persons.

16. The phenomenon of “traffic lights children” surfaced in the early 1990’s, with the entry into the country of economic immigrants who, as a rule, exploited their children financially and pushed them to beggary and self-employment.

17. Today, this phenomenon tends to be eliminated through:

(a) Daily police patrols and checks in sensitive areas especially in the centre of Athens and throughout the province of Attica;

(b) The almost complete integration of foreigners in the social tissue of the Greek society, owing to the fact that the Law on Aliens resulted in legalization of all persons who had entered the country, legitimately or not;

(c) The implementation of article 7 of Law 2010/01, by virtue of which, when minor aliens, victims of instigation of financial exploitation, are deported, their guardians are deported with them, since they are deprived of resources and the financial exploitation of minors is considered as the last resort for their survival.

18. The “Aghia Varvara” foundation, a “children’s land” is a unit of the 2nd Regional Health

and Welfare System of Attica (it is a legal entity in public law) and operates as a decentralized and independent unit, with administrative and financial autonomy. At present, this “children’s land” provides accommodation for teenage girls (13 – 18 years old) whose parents have particular health, social or financial problems or who are totally deprived of a proper family environment. In exceptional cases the foundation may lodge teenage girls who have committed offences in the past, either by court order or by order of the Public Prosecutor of Athens for Minors.
