List of issues concerning additional and updated information related to the combined third and fourth periodic reports of Spain (CRC/C/ESP/3-4)

The Committee will take up all aspects of children's rights contained in the Convention and its optional protocols during the dialogue with the State party.

The State party is requested to submit additional and updated information in writing, if possible before 2 August 2010.

Part I

1. Please provide the Committee with information on steps taken to ensure effective coordination on children's issues between the central administration and the autonomous communities, given that it is the autonomous communities that are responsible for issues involving children. Would it be possible to implement coordination procedures for child policy similar to those that are proving successful in other areas?
2. Please inform the Committee whether any assessment of the National Strategic Plan for Children and Adolescents (2006–2009) has been carried out and please describe its main outcomes. Has the National Strategic Plan for Children and Adolescents been reworked or are there any plans to do so? Will it include indicators, measurable goals and its own budget?
3. Please provide the Committee with information on the procedures governing children's participation in judicial and administrative proceedings, particularly opportunities for children to express their views and for those views to be taken into consideration. Please also provide the Committee with information on the technical means used by the State party to enable children to participate in judicial proceedings without revealing their identity to other parties.
4. Please provide information on privately run centres involved in the protection of children with behavioural disorders or at risk of social problems. What rules or regulations govern the operation of such centres? How are children admitted to such centres? Are

placement orders subject to periodic review? Are there child-friendly complaints mechanisms?

5. In regard to international adoptions, please explain how the 23 recognized central authorities in the State party are coordinated and how quality control and respect for the best interests of the child are ensured, especially in countries of origin.

6. Please provide information and data on bullying and violence in schools, particularly against children of foreign origin or with disabilities, or children targeted because of their sexual orientation. Please also describe the measures aimed at addressing that problem and developing a culture of tolerance in schools, and the results obtained.

7. Please provide the Committee with information on the implementation of the rights of the child in reception centres for children in the Canary Islands, Ceuta, Melilla and various localities in Morocco, in particular information on the number of such centres, their location and the national or autonomous authority or institution responsible for running them and the rules governing their operation.

8. Please provide the Committee with information on the implementation of the following agreements on asylum issues and on guarantees for Moroccan or Senegalese child victims of trafficking, prostitution or pornography: (a) "Agreement between the Kingdom of Spain and the Kingdom of Morocco on cooperation in the field of prevention of illegal emigration of unaccompanied minors, their protection and agreed return"; (b) "Agreement between the Republic of Senegal and the Kingdom of Spain on cooperation in the field of prevention of emigration of unaccompanied Senegalese minors, their protection, repatriation and reintegration".

9. Please provide the Committee with information on the functioning of the National Register of Unaccompanied Minors established under Organization Act No. 4/2000 of 11 January 2000 on the rights and freedoms of aliens in Spain.

10. Please describe the procedures to be followed when children on board small boats are intercepted by Spanish ships in international waters outside the State party's territorial jurisdiction.

11. Have any complaints been reported concerning offences covered by the Optional Protocol to the Convention on the Rights of the Child on the sale of children, child prostitution and child pornography?
