Please further comment on progress towards adopting a law on universal salt iodization and towards eliminating iodine deficiency disorders among children.

9. Please specify whether safeguards are in place to ensure that the return of children, to and from Ukraine, is carried out only in accordance with the principles of non-refoulement, of family unity, and the best interests of the child in the context of the readmissions agreement with the European Union and the agreement for the return of minors with the Commonwealth of Independent States.
10. Please inform the Committee about progress towards strengthening labour inspection in the informal sector and identifying children working in illegal coalmines and engaged in the grading and loading of coal on the open surfaces.
11. Please indicate what specific measures have been taken to follow up on the Committee's concluding observations upon the examination of the initial report under the Optional Protocol on the sale of children, child prostitution and child pornography, especially measures to criminalize all acts and activities concerning cases of the sale of children, child prostitution and child pornography as defined in Articles 2 and 3 of the Optional Protocol, including improperly inducing consent, as an intermediary, for the adoption of a child.
